INTRODUCTION

INTRODUCTION

INTRODUCTION

Our visions...

Primary Goal

- A policy recommendation service that allows information on youth policies
- Create a highly accurate generative Chatbot using the NLP model
- Targeting young people living in Seoul and Gyeonggi Province

Secondary Goal

- A rating system community
- Develop dedicated website
- Expanding service coverage to the metropolitan areas

Last Goal

- A more detailed guide to the policy you want to proceed with
- Introduction to additional information required during the application process
- Nationwide service

ROLE OF EACH MEMBER

➤ Kangsan Kim, Team Leader, UI/UX

- Designing better User Experience
- Visual Design
- Developing Web Page
- Figma, Nextjs

➤ Jinho Park, Data Engineer

- Data Pipeline
 - Crawling/Preprocessing/Generation ...
- Database Integration
- Code Refactoring
- Python, DBeaver

➤ Changmin Jun, Back-End Developer

- Login and Sign up with security
- Desgin and link DB
- Server Development
- Nextjs, MariaDB, Fast API

➤ Seungbin Yang, AI Engineer

- Model Development
- Model Training & Evaluation
- Paper Search
- Python, Faiss

- Designing better User Experience

🤖 Chat-pub Chatbot Demo

안녕?

안녕하세요! 저는 정책 혜택에 대해 안내해주는 챗봇입니다. 궁금한 점이 있으시면 언제든지 물어보세요. 저는 친절하게 답변해드릴게요!

난 지금 고양시에 살고 있고 20대 남성이다. 내가 받을 수 있는 정책 혜택이 있을까?

고양시에 거주하고 있는 20대 남성이신 경우, '고양청년 창업 재정지원 프로그램'에 참여하여 혜택을 받을 수 있습니다. 이 프로그램은 창업을 준비하는 청년들에게 무담보 신용보증과 최대 5천만 원의 대출을 지원 합니다. 자세한 신청 방법은 경기신용보증재단 고양지점을 방문하여 상담하시면 됩니다. 자세한 내용은 [고양시 공식 홈페이지](#)에서 확인하실 수 있습니다.

제목: 고양청년 창업 재정지원 프로그램

FRONT-END MAIN PAGE

Welcome, John Doe!

CHAT - PUB

Ver 1.0 Oct 120

Examples
What are some policies that will benefit me?

Capabilities
Remembers what user said earlier in the conversation

Limitations
May occasionally generate incorrect information

How can I apply for housing aid for Seoul residents?

Allows user to provide follow-up corrections

It does not guarantee. Please use with caution.

Can you tell me about any job education that is available for me?

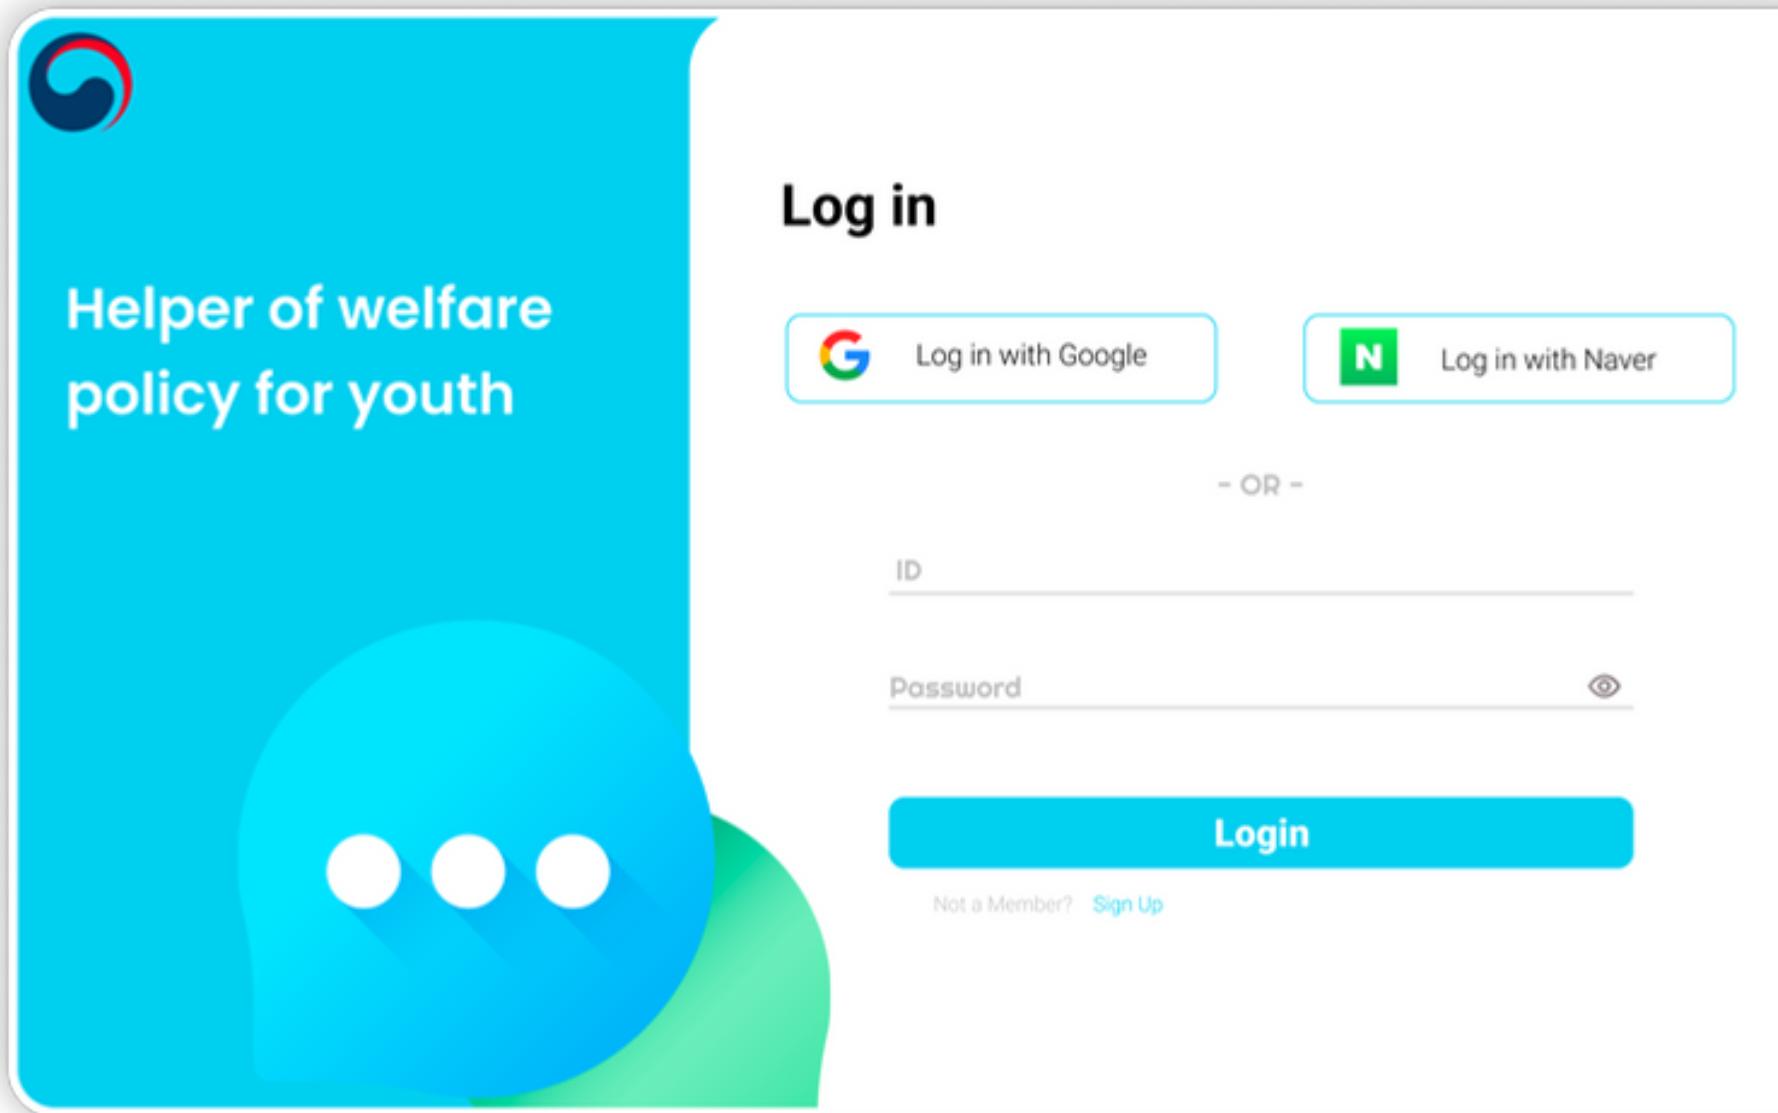

Trained to decline inappropriate requests

Limited knowledge of policy

New dialog

Send a message

FRONT-END LOGIN PAGE / SIGN UP PAGE

The login page features a teal header with the text "Helper of welfare policy for youth". Below the header is a large blue circular graphic containing three white dots. The main form area has a light gray background. It includes a "Log in" heading, two social login buttons ("Log in with Google" and "Log in with Naver"), a "Full Name" input field, a "Email Address" input field, a "Password" input field with an "Eye" icon, and a "Login" button. A "Not a Member? Sign Up" link is located at the bottom left.

FRONT-END SETTING PAGE

The screenshot shows a user interface for managing personal information. At the top right, a blue bar displays the welcome message "Welcome, John Doe!". On the left, a vertical sidebar contains four icons: a house (Account), three dots (Personal info), a magnifying glass (Search), and a gear (Settings). The main content area is titled "Personal info". It includes sections for "Legal name" (John Doe, Edit), "Email address" (JohnDoe@gmail.com, Edit), "Phone numbers" (010-XXXX-XXXX, Add), "Address" (Not provided, Edit), and "Emergency contact" (Not provided, Add).

FRONT-END MESSAGE PAGE

The screenshot displays a messaging interface with a blue header bar containing the text "Welcome, John Doe!". Below the header, there is a list of messages. The messages are color-coded: light gray for the user and teal for the bot. Each message includes a timestamp and a small profile icon.

User Message: Hi, I'm a 25 and I currently live in Gyeonggi-do.
2023-11-02

Bot Response: 10:00 AM, 20 Oct
Hi, I'm a 25 and I currently live in Gyeonggi-do.
I wonder if there's a housing policy I can benefit from?  

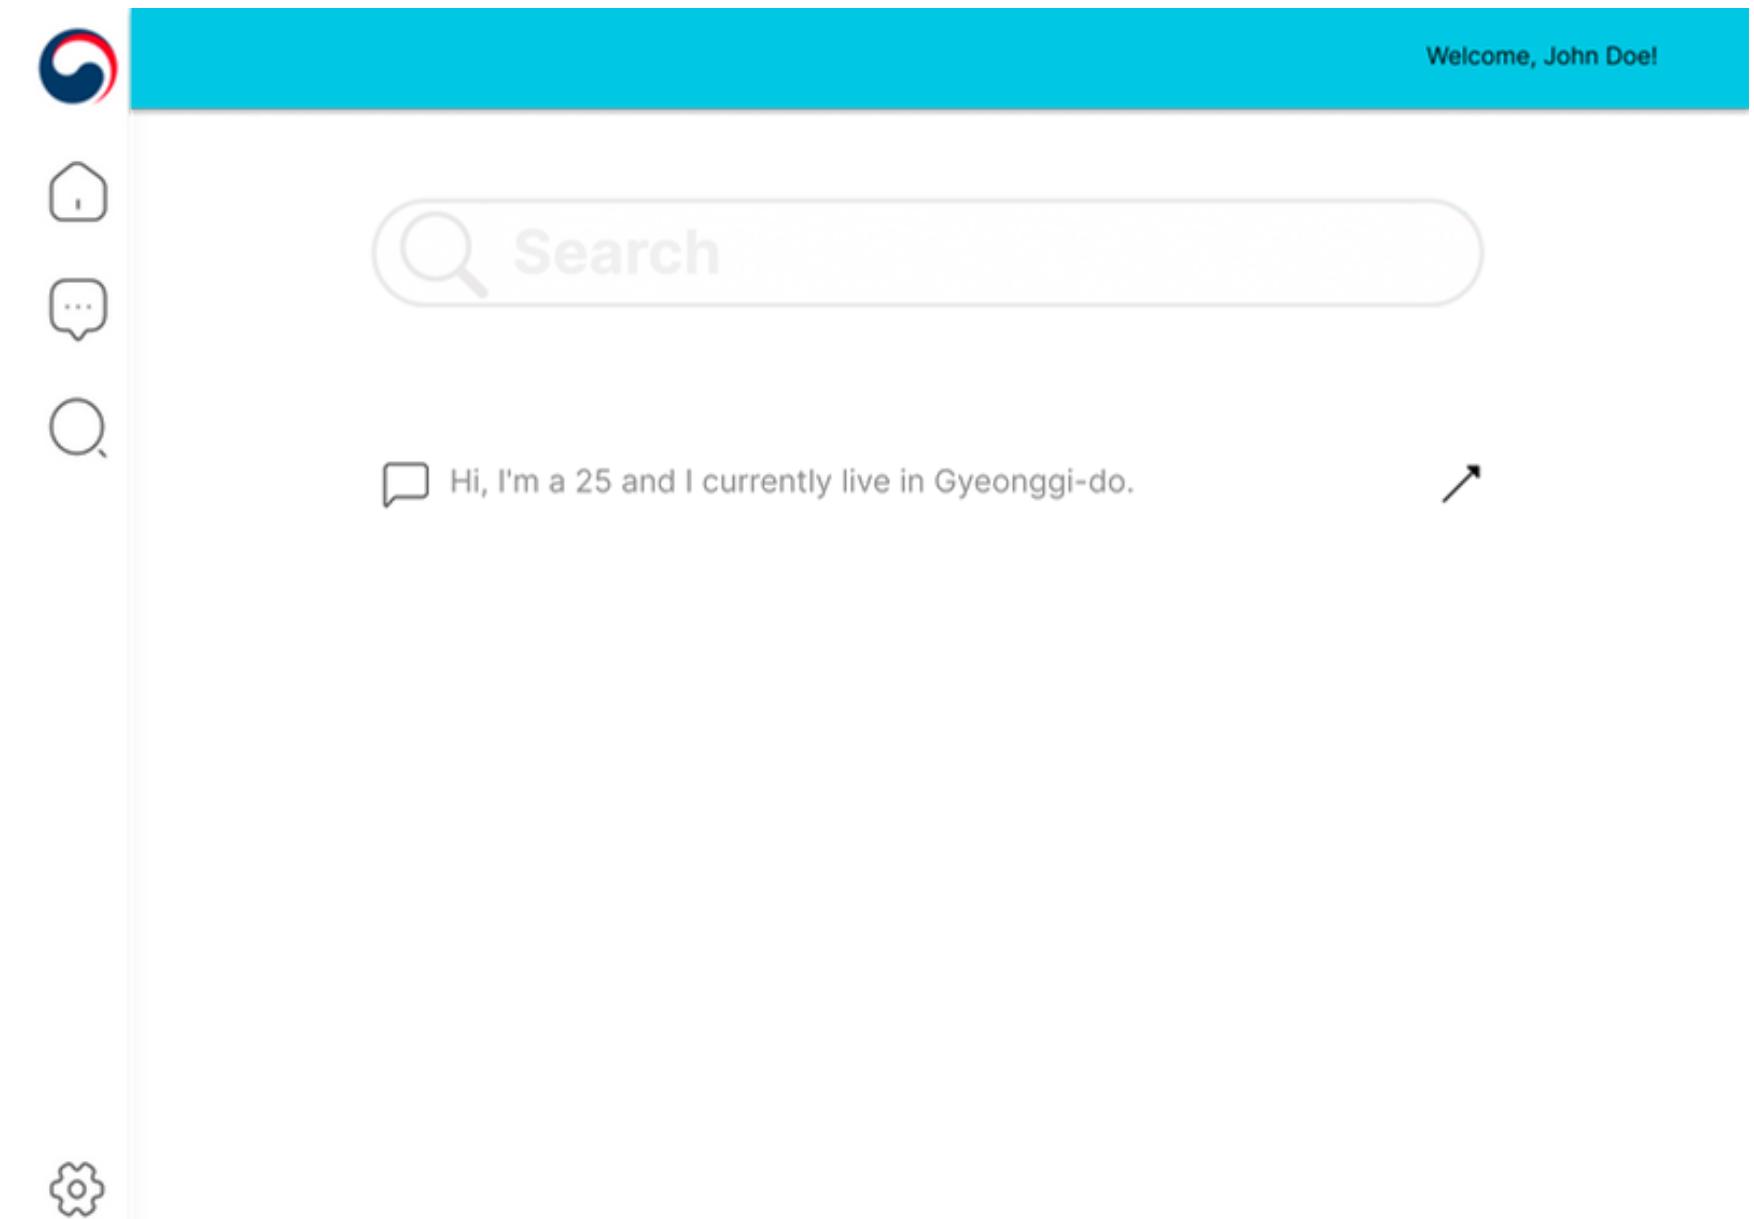

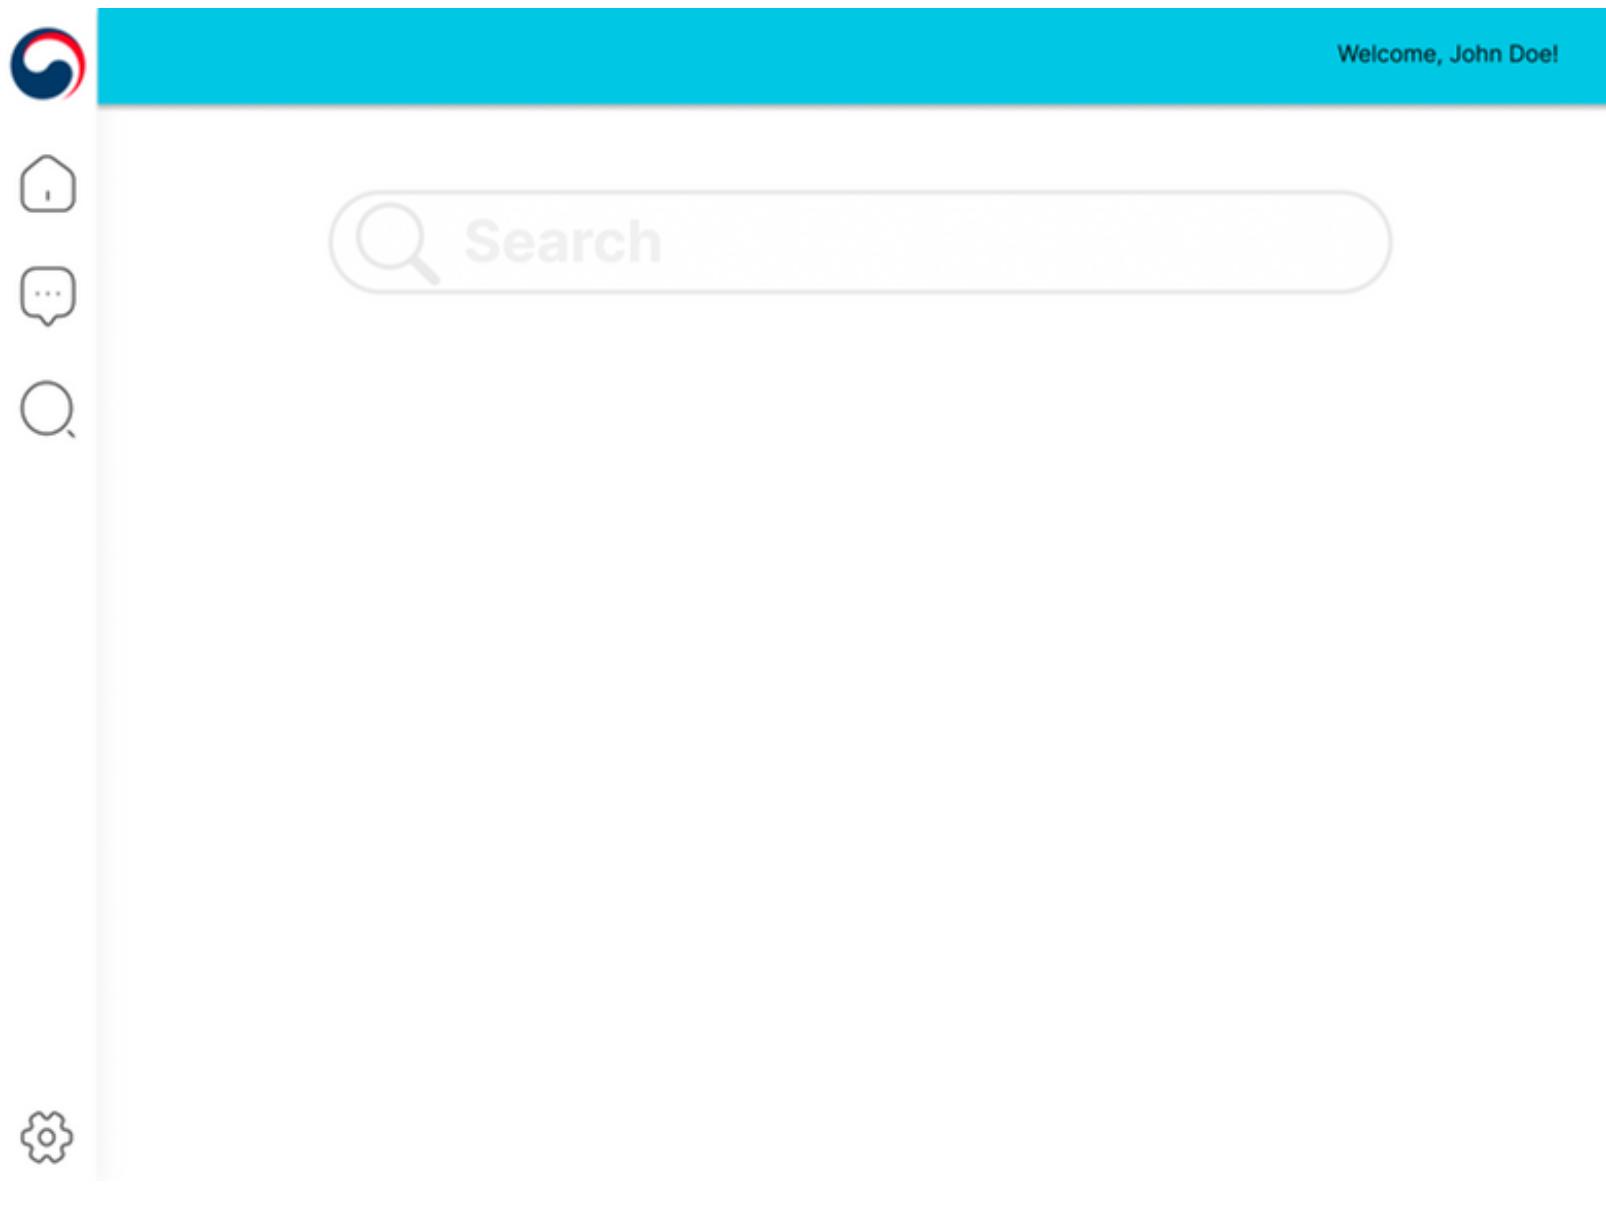

User Message: Could you tell me the exact place of residence?
10:01 AM, 20 Oct

Bot Response: 10:01 AM, 20 Oct
I live in Suwon  

Bot Response: 10:01 AM, 20 Oct
Here is Policy that might benefit you!
the policy is called recruitment of youth zones that is for To promote housing stability of young people in Suwon City to 50% level of young people in Suwon City.

FRONT-END SEARCH PAGE

FRONT-END CHALLENGE&SOLUTION

Monotony: Working with a single color can risk making the design appear monotonous or boring.

MAINTAINING VISUAL INTEREST WHILE USING LESS COLOR

Texture and Depth: Creating texture and a sense of depth in a one-colored design can be challenging.

RELY ON TECHNIQUES LIKE SHADING AND PATTERNS

Clarity and Readability: Achieving clarity and readability in a one-colored design, especially with text, can be tough.

BALANCE THE COLOR CHOICE WITH THE CONTENT TO ENSURE IT'S EASILY LEGIBLE.

LIMITATION

Resource Constraints

Limitations on the information due to fetching data from a single web page

Privacy and Security

Prone to malicious attacks

The difficulty of model training

Not being able to train on real user data

PROJECT SCHEDULE

QUESTIONS & ANSWERS

APPENDIX

- **Automatically augmenting the reference question with large language models is surprisingly effective, showing higher correlations with human annotated scores.**

Shinhyeok Oh, Hyojun Go, Hyeongdon Moon, Yunsung Lee, Myeongho Jeong, Hyun Seung Lee, and Seungtaek Choi. 2023. *Evaluation of Question Generation Needs More References*. In *Findings of the Association for Computational Linguistics: ACL 2023*, pages 6358–6367, Toronto, Canada. Association for Computational Linguistics.

- **A ChatGPT-based QG model achieves state-of-the-art (SOTA) performance in generating answerable questions**

APPENDIX

Task: Write two sentences that mean the same thing.

Sentence 1: “A man is playing a flute.”

Sentence 2: “He’s playing a flute.”

Task: Write two sentences that are somewhat similar.

Sentence 1: “A man is playing a flute.”

Sentence 2: “A woman has been playing the violin.”

Task: Write two sentences that are on completely different topics.

Sentence 1: “A man is playing a flute.”

Sentence 2: “A woman is walking down the street.”
